

International workshop on dog-related education

“A Dog-Loving Society: Best Practices and Perspectives”

The workshop was officially open by **Ramune Kazlauskaite**, the President of the Lithuanian Kennel Club.

In her welcoming word, **Marie Luna Durán**, FCI Marketing and Public Relation Manager, made a brief overview of FCI initiatives and encouraged sharing of best practices.

Sean Delmar, representing FCI European Section, noted that different countries faced different challenges and emphasised the necessity of building relations with society and legislation so that “dog professionals” are seen as leaders in the field and are considered the solution rather than the problem by media, public and legislators, as is the case in Lithuania.
